THINK GREEN REWARDS Now Available in Booth Farm Community

Dear Valued Customer:

Think Green Rewards is available to you starting October 17, 2011. On that day, you can log into www.ThinkGreenColorado.wm.com and set up your account so you can start collecting points good toward money saving coupons.

This new Waste Management recycling rewards program will provide you with valuable coupons for restaurants, community attractions, retail merchants and more. This community based recycle program allows you to collect points every week you recycle. The points are calculated based on the entire community's weight of recycle, so the more you and your neighbors recycle the more points you earn. Remember, you must log in and registered to earn points.

Right now, you can order your 96 or 64-gallon recycle toter from Waste Management. Just call 303-797-1600 and let the customer service representative know your address and we can arrange for delivery. This recycle toter is now provided to you as part of your Waste Management service. If you want us to pick up your two smaller recycle bins, let us know that too. You may start using your larger container right away - your recycle collection will remain on its same every other week schedule (follow the yellow schedule.)

Again, thank you for your business. All of us at Waste Management are dedicated to providing you with excellent service.

Sincerely,

Waste Management of Colorado
303-797-1600
